Professional Summary

Software engineer with two years of experience building cloud applications on SAP BTP with ABAP for Cloud Development, the ABAP RESTful Application Programming Model (RAP), CDS view entities and SAP Fiori Elements. Experienced with draft handling, feature control, validations, OData V4 services, ABAP Unit and Git-based delivery with abapGit. Comfortable with full-stack work (React, REST APIs).

Experience

SAP ABAP Developer – SAP Technology Partner (consulting) **Sep 2024 – Present**
SAP BTP ABAP Environment, S/4HANA Cloud extensions *Rabat, Morocco*

- Developed 6 RAP business objects (managed, with draft) for purchasing and HR extensions: CDS interface and projection views, behavior definitions, validations, determinations and actions.
- Exposed OData V4 UI and Web API services; built Fiori Elements List Report and Object Page apps with metadata extensions, value helps and feature control.
- Wrote ABAP Unit tests with the CDS and ABAP SQL test double frameworks; reached 80% coverage on core logic.
- Migrated custom reports to ABAP Cloud (released APIs only) and managed code with abapGit and GitHub pull requests.

SAP Developer Intern **Feb 2024 – Jul 2024**
Digital transformation team of a logistics company *Casablanca, Morocco*

- Built CDS analytical views and a Fiori Elements app to follow delivery delays; integrated an external REST API from SAP BTP.

Projects

Leave Request Management on SAP BTP **2025**

- RAP managed BO with draft, approval workflow actions, e-mail notification and a Fiori Elements app; delivered with abapGit.
- **Technologies:** ABAP RAP | CDS | Fiori Elements | SAP BTP | abapGit

Fleet Booking Service (open source) **2024**

- REST API with FastAPI and PostgreSQL, React front end, Docker deployment and CI tests on GitHub Actions.
- **Technologies:** Python | FastAPI | React | Docker | Git

Education

Engineering Degree in Software Engineering **2021 – 2024**
National engineering school *Rabat, Morocco*
